Space & Naval Warfare Systems Center Awards Contract

CHARLESTON -- Quanta Systems Corporation of Gaithersburg, Md., has been awarded a \$5,426,189 combined cost plus fixed fee, fixed price with prospective redetermination, indefinite quantity, indefinite delivery contract for engineering services in support of the Navy Regionalization Plan. This contract will provide signal transmission capability between multiple agencies through the use of the Derived Channel Access technology. The contractor will design and install systems incorporating DCX equipment that will take multiple Electronic Security Systems and integrate them with one monitoring system. The proposed contract will also provide for program management, system procurement (in accordance with QSC's approved purchasing system), Electronic Security System installations, Electronic Access Control System installations, Closed Circuit Television installations, various electronic systems installation, and maintenance support as needed in the DCX installation, and other Electronic Security System projects. This contract contains four one-year options, which, if exercised, will bring the total cumulative value to \$31,978,803. Work will be performed in San Diego (20 percent), Norfolk, Virginia (20 percent), Pensacola, Fla. (20 percent), Hawaii (20 percent) and other locations (20 percent). Contract funding is from Operations and Maintenance (Navy) sources and will not expire at the end of the fiscal year. This contract was competitively procured with two offers solicited and one offer received. The Space and Naval Warfare Systems Center Charleston is the contract awarding activity (N65236-98-D-7813).
